What to Do with Used Sharps in **Indiana**

Put used sharps in a strong, plastic container

When the container is 3/4 full, put the lid on, seal it with duct tape, and label. DO NOT RECYCLE.

Have a needle clipper? When the needle clipper is full, it can be disposed of according to your state or local regulations. More information can be found [here](https://safeneedledisposal.org/sharps-management/fda-cleared-sharps-containers/). <https://safeneedledisposal.org/sharps-management/fda-cleared-sharps-containers/>

Put the plastic container in the household trash - **don't recycle!**

If a trash collector is reluctant to collect a red sharps container, refer them to your [state waste agency](#).

Sharps should never be thrown loosely into the trash or toilet

Sharps that retract after use, or are very small, should be disposed of like all other sharps.
